## Chimney King Listed with HT 103 Chimney

Chimney King's entire line of chimney shrouds is now listed for use with the HT-103 chimney lines of Selkirk Metalbestos, Simpson Duravent, Metal-Fab and ICC Chimney.

This is the first time a custom, decorative chimney shroud has carried a UL listing and label for use with HT (high temperature) 103 chimney. These Open top, Mailbox and House style shrouds can be custom sized and still meet the International Mechanical, Residential, Fuel Gas and Fire Codes as well as NFPA 211 and NFPA 54's requirements for use with factory built solid wall and air cooled chimney.

Chimney King President Derek Lidstrom, author of the International Fire Code 603.6.3, and Selkirk Metalbestos VP of Engineering, Glenn Edgar, worked together to solve a problem which has vexed the chimney industry for years – how to make a safe decorative shroud.

This listing can be viewed at [UL.com](http://UL.com).

## Bernard Dalsin Mfg. Introduces Leak Proof Bio Vent™ Elbow

Bernard Dalsin Manufacturing introduces a completely leak proof, one piece elbow as a new product addition to the Bio Vent™ complete line of components. The inner flue of the elbow is now made from one continuous piece of stainless steel.

Competitors' pellet vent elbows have multiple seams in their construction and are manually caulked at each seam. The problem with the caulking method is that if there is any spot on the seam that is missed when manually caulking, the elbow will leak. Also, the caulk can become brittle and over time fail to make a complete seal.

As with all Bio Vent components, the elbow's inner flue is made with AL 29-4C, super ferritic stainless steel that can withstand exhaust from bio-fuels that can cause extensive corrosion in other types of stainless steel commonly found in competitors' vent systems.

This new elbow also uses a gasket-sealed connection. This exclusive pre-installed gasket makes installation time a fraction of the time of other conventional venting products and eliminates the possibility of leakage at the connection point.

Tested and listed with Omni Laboratories. 10 year warranty. For more information visit [www.dalsin-mfg.com](http://www.dalsin-mfg.com) or call Bernard Dalsin Manufacturing at 800-729-9505.
